

OVERVIEW

ISO 14001, revised after several years, last saw revisions in 2004. ISO revised the standard in Sept 2015. ISO 14001 is one of ISO's most important standards, with many major purchasers requiring suppliers to hold a certificate.

For organizations which have been implementing ISO 14001:2004, with the revision to the ISO 14001 standards to the potential new ISO 14001:2015, a review of the environmental management system will be required to adapt to new requirements.

In this training, through group activities and individual participation you will understand what is needed for the new ISO 14001:2015. Most of all you will learn how to complete it efficiently and how it will benefit you

OBJECTIVE

This is a very comprehensive course and covers:

- ❖ Upgrade an existing environmental management system to meet 14001:2015 requirements.
- ❖ Differentiate between the purpose and intent of the 2004 and new 2015 standards.
- ❖ Use words new to the potential new ISO 14001:2015.
- ❖ Aware and understand the latest ISO 14001:2015 requirements.
- ❖ Distinguish the main difference between ISO 14001:2004 and the new ISO 14001:2015 EMS requirements.
- ❖ Conclude the major impact of potential ISO 14001:2015 requirements to their own ISO 14001:2004 EMS.
- ❖ Formulate the transition plan for ISO 14001:2015

ISO 14001:2015 Environmental Management System Awareness and Upgrading Training
