

## OVERVIEW

Warehousing is recognised today as one of the most important functions in commerce and industry. Employers have realized the value of having well-trained warehouse managers to control their stock, and they are prepared to reward them with good salaries and working conditions. The programme is suitable for those people who are employed as storekeepers and warehouse executives who wish to get ahead in their jobs, as well as those who want to enter warehouse management as a career. This programme is tailored to meet the needs of the industry, with emphasis on warehouse management. All various aspects of warehouse operations and inventory management will be covered
