Creative Problem Solving and Decision Making

Whether as an individual or an organisation, we confront daily challenges and issues. It is of utmost importance to identify the problems appropriately. Identification of problems will lead to the appropriate thinking required to solve the issues. Problem identification and creativity are all about looking at the various perspectives and being daring enough to do things differently and effectively.

MODULE OUTLINE

Module 1: Creative Problem Solving Model

Module 2: Components of Creativity

Module 3: Exploring the Brain and Mind

Module 4: Essential Problem Identification Tools

Module 5: Creative Thinking Techniques and Practical Application

Module 6: Decision Making Techniques

Module 7: Building Creativity in Teams

WHO SHOULD ATTEND

All professionals striving for better results through more effective problem identification methods and creative thinking skills should attend this workshop.
