## INTRODUCTION

Collection from your Debtors always has a huge impact on cash flows and the sustainability of your company. Poor Credit Management and Bad Debts are a serious matter for any company. It has been known to ruin otherwise successful concerns. It is essential to ensure that your debt collection activities result in payment of the outstanding amounts, without damaging your customer relations. Collecting monies owed to your organization can be a big exercise and can be frustrating if you're not familiar with strategies that get results.

A better understanding of the credit assessment policy and its control mechanism, which covers credit evaluation and credit limit review, would lay down a strong foundation to manage your company's risks to minimize bad debts.
